iR 6800C

Multi Functional Printer

A brilliant new breakthrough
in black and white –
smart colour capability

The productive new black
and white Multi Functional
Printer that gives controlled
use of colour.

iR 6800C - Black and white business efficiency. With added colour capability.

Canon black and white Multi Functional Printers have always been the smart way for busy workgroups and departments to share information effectively, scan, send and professionally finish documents. Now they can do it all with the smart use of colour.

iR 6800C - The new way to work brilliantly in black and white and enjoy the smart use of colour when you need it.

Universal i-Send

- Mailbox
- iFax
- e-mail
- FTP server
- Database
- Desktop

- Copy
- Scan
- Print
- Mailbox

Network Ready
Select the model that suits your needs. The iR 6800C is available in two versions. The **iR 6800CN** comes fully network ready with a built-in PS/PCL/UFR printer board, for people who want colour control. The **iR6800C** is available with an EFI printer board D1, for true PostScript giving greater colour control.

Universal i-Send
Change the way your company communicates effortlessly and inexpensively. By turning the MFP into a communications hub it allows you to scan and share hard copy documents easily.

High productivity
68 black and white pages per minute (ppm) and 16 colour ppm. For fast black & white printing with smart colour capability on your network.

The new iR 6800C Multi Functional Printer (MFP) brings the best of all worlds to a busy working environment. As a highly productive printer, copier and scanner, it simplifies the task of creating and distributing electronic and paper documents. As an intelligent digital tool, it can improve your network communications and save money through cost control.

A smarter way to work

The Canon iR 6800C is a device that performs the work of many. So you can capture, manage and distribute documents electronically across your network and beyond. **As well as printing, scanning and copying, you have the option of intelligent sending and receiving of digitised documents to whoever needs them through the innovative Universal I-Send* function.**

Intelligent document distribution

When the iR6800C is linked to your network, you can scan in documents fast and pull them back to your desktop. With the optional I-send* you can send scanned documents to e-mail addresses or mailboxes, a specific database or file server for storage, in black and white or colour. So you minimise the time, space and costs traditionally associated with filing and distributing paper documents. Don't worry about colour congesting your network. Canon's unique smart colour file compression reduces a 300 dpi file to approximately 10% of its original size.

Brilliant Results

The iR 6800C combines Canon's outstanding black and white technology with the added value of colour. **For an amazingly cost effective budget, you can brighten up your business documents when and where you need to.** Just configure the versatile iR 6800C to suit your business needs and finishing requirements. Then use its intelligence to enhance your business processes the easy way.

*Optional

iR 6800C - The perfect opportunity to add colour to black and white while keeping your printing costs under control.

Making colour available.
And keeping it affordable.

Your business documents are a reflection of your organisation. You can now add the power of colour to your documents to give them the impact they deserve. Better still, the iR 6800C can tell colour from black and white. So you only have to pay for colour when colour is used. And you can control who uses it and how often. Which gives you the option of smart colour documents when you need them, without the expense when you don't.

Control colour easily

Use Canon's ID management technology to set colour printing limits or quotas for different individuals - and avoid the spiralling costs of unauthorised usage. Unusually for a colour capable black and white printer, the iR 6800C also defaults* to black and white unless you specify colour. So you don't end up paying for colour when black and white is all you need. And with Canon's **Document Accounting Intelligence**, you can even attribute print costs to specific clients and manage your budget more efficiently. An optional control system also helps manage usage through intelligent cards that must be inserted before access to the functions is given.

Apply colour intelligently

Imagine how much more impact your documents could have with a touch of colour. **Research[†] shows that information in colour can be located 70% faster and increases recall by over 80%.** Selective use of colour in black and white can have an even greater impact. Colour highlights improves information search time by 39% and colour on an invoice makes the recipient 30% more likely to pay. With smart use of colour on the documents your company produces, it wouldn't take your iR 6800C very long to pay for itself.

Black and white durability with colour precision

For the first time Canon have built their highly durable a-Si drum into a colour capable printer for high speed, high volume mono printing. Print speed and economy is also enhanced by Canon's new Hybrid Process Engine which uses a separate compartment for black and colour printing. When smart colour is required, Canon's oil-less new colour S toner offers the ideal matt finish for your business documents, at an excellent 2400 x 600dpi equivalent print resolution. Brilliant colour when you need it, fast black and white when you don't.

There are lots of small ways for businesses to add colour smartly to their black and white documents.

Sales presentations can use colour to highlight key information that gets important messages across.

Tender documents can be made more effective by using colour in headings, charts and graphs.

Financial reports can use colour to emphasise key sections or significant figures and results.

Superior colour quality Canon's 'S toner' technology produces eye catching colour and black and white documents. Better still, the oil-less matt finish allows users to mark up and edit printed documents easily by writing directly in pen on the page.

* Using printer unit D1, the device defaults to Automatic Colour Select

iR 6800C - a giant leap forward for black and white document production, for users who prefer small, easy steps.

Use smart technology with total simplicity.

The iR 6800C is simple to use either from the device itself or the user's desktop. Everything from scanning and sending to printing and finishing documents is achieved with minimum effort and maximum efficiency. As well as being easy to use, the iR 6800C is simple for IT Managers to set up and configure in a way that best suits document processing requirements. It's the easy way to introduce cost effective colour to workgroups used to working in black and white.

Straight forward to operate

Use the large, familiar colour control panel to select functions and make adjustments easily at the touch of a button. Together with this the iR 6800C offers many more features and additional benefits. **Clear menus give simple choices for copying, printing, scanning, sending and more complex editing or manipulation features. You don't have to stop to change the toner. The large black toner bottle can easily be changed while the iR 6800C continues printing, increasing uptime and productivity.**

Manage remotely – send and print securely

Using the Remote User Interface (RUI) with its web browser, the iR 6800C can be accessed and managed by users at their workstations. This makes it easy to send confidential documents and files to personal mailboxes with individual passwords, ensuring confidentiality and printing security. This ability to send secured print jobs to a device is ideal for sensitive documents such as performance appraisals, CVs or legal and financial data. It keeps the information out of sight in the memory until the user is ready to print.

Improve productivity with faster document output

Take advantage of Canon's shorter, flatter paper path to accelerate document flow without compromising on quality. Use the colour capability to make finished documents that look outstanding, plus reduce outsourcing - or wasted time collating black and white and colour manually. **Print at a highly professional 68ppm in black and white and 16ppm in colour (A4 – single sided).** Beat your deadlines by using the high capacity optional paper decks to print continuously – using a variety of media sizes (up to A3+ with a maximum printable area of A3 full bleed printing on A3+ paper) and weights for different document requirements.

Save time
To save time and avoid keying errors, users can automatically access company e-mail addresses from the control panel using LDAP (Lightweight Directory Access Protocol) technology.

Use technology smartly
Initiate, preview and monitor jobs easily using Canon's familiar colour control panel and standard printer driver.
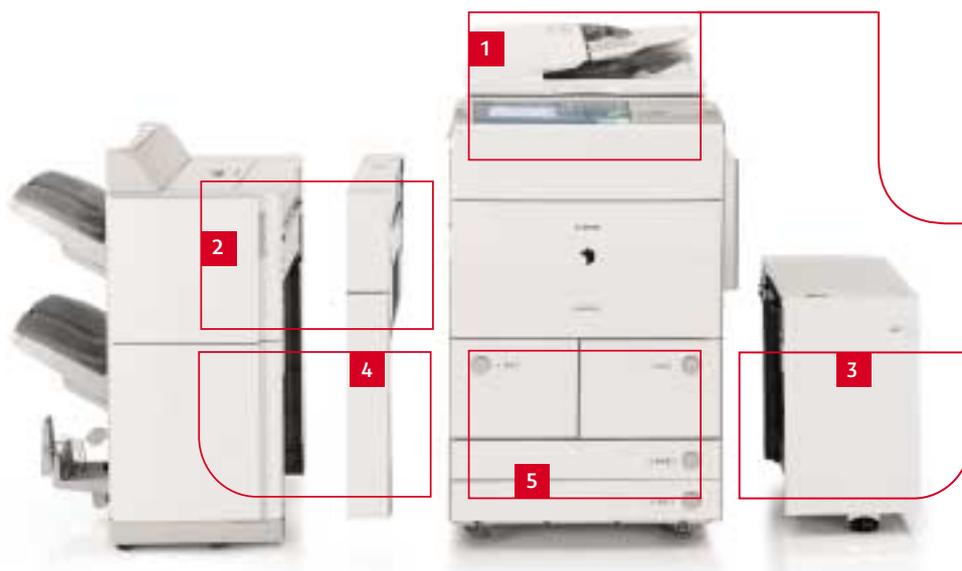

Increase productivity
With print volumes doubling every 5 years* speed of document output is increasingly important. With the iR6800C you are able to print on demand fast.

iR 6800C - The perfect way to finish every document you start.

1 **Duplexing Automatic Document Feeder (DADF)**
2 **Saddle Finisher R2***
   (Finisher R1* available)
3 **Paper Deck***
4 **Puncher Unit***
5 **Cassettes / Decks**

Business in black and white has never looked better.

Create documents from different applications

Do you ever struggle to put together complex documents to beat tight deadlines? Especially if they are being produced by different people and in different file formats. **With Canon's new, simple to use software, your struggle is over, whatever the size of your organisation or department.** Called iW Publishing Manager, it enables you to create documents by merging the component parts from different Windows-based applications (Word, Excel, PowerPoint, PDF etc) as a single electronic 'master' document. From this, you can not only edit and personalise, but also finish and print it. Think of all the time that could be saved instead of collating complex documents by hand.

Improve your document workflow

Combining iW Publishing Manager with a smart colour 'capable' Canon Black and White printer increases and improves document flow throughout your organisation. The software is easy to use – it's as simple as clicking and dragging icons on screen. The new 'master' document created through iWPM is easily converted to PDF format, making it simple and versatile for sending and printing. Options such as stapling, making booklets and page numbering are available and once the document is collated, the finishing instructions are saved with the document for easy re-printing of any job.

Talking your network's language

You can print in any standard PCL and PostScript environments with the iR 6800C. For even greater fluency of output, it also utilises **Canon's new UFR printing language** which minimises file processing time and significantly speeds up printing in Windows by sharing the processing load between the computer and the print device.

For set up and configuring, the iR 6800C is the answer to an IT manager's prayers. It can be assembled to suit your system seamlessly. It comes in two versions. The iR 6800CN with its own built in print controller or the iR 6800C with true postscript EFI printer board D1.

Twenty? Fifty? One hundred? How many people are creating documents in your company? If every one of them could print those documents more quickly in black and white and colour, collate and finish them automatically - all through a single hard working device – how many times more efficient would your business be?

By giving you flexible printing and brilliant finishing options, that's exactly what the iR 6800C is able to do.

Default Black & White
The iR 6800C defaults to black and white unless colour is selected, to avoid colour printing charges when you don't need them.

Affordable colour
Create high quality documents mixing colour and black and white without the need for two devices.

For a professional finish

Once the iR 6800C has helped you scan, store, send and print documents electronically, the least it can do is finish them in style. Choose from a range of options that put the final professional touch to your brilliant black and white documents with smart colour when you need it. From collating, hole punching and multi position stapling to impressive saddle stitched booklets. The iR 6800C also accommodates printing on tabs, transparencies and has a separate feed for covers. It supports paper stock up to 250gsm - ideal for report covers.

Great finish
Choose from a host of finishing options that are available for impressive looking documents every time.

| Staple | Group & Collate | Create Booklet | Hole Punch | Tab Printing | Duplexing |

Smart thinking that suits every business environment

Canon's aim is to create working solutions that are useful to your business, helpful to your people and friendly to the environment. As a commercial tool, we appreciate the importance of the iR 6800C to your information workflow and do all we can to protect your investment in it through the best support in the business. As a technological office device, we also recognise that the iR 6800C must be able to help the business world without a cost to the natural world.

iR 6800C - The smart solution for anyone looking to improve business efficiency, saving money and energy.

Another smart world first from Canon.

Canon's award winning design policy for business machines has enabled them to increase your business efficiency and still reduce harmful substances used in manufacture.

Enjoy more uptime

Canon designs its business devices to make complex tasks easy. Users with internet and network capabilities can realise the potential of the iR 6800C without having to spend time becoming IT experts. If required, training can be provided on the device or any related software. For service support, our dedicated networks of technically qualified personnel are unrivalled in their ability to maximise workflow and minimise downtime. As well as on-line support, you have the option of e-Maintenance* – a proactive service tool maximising uptime allowing your organisation to have greater control of its assets.

Helping balance nature

As an energy saving resource, the iR 6800C is ahead of its time. Designed to eliminate six key substances identified as harmful in the manufacturing process, this is the first IT based product in the world to comply to the new European Parliament ROHS (Restriction of Hazardous Substances) Directive. Compliance is not required until 2006 but Canon have designed the iR 6800C as the model that sets the standard in the IT industry. The iR 6800C has also earned a coveted Energy Star as a Multi Functional Printer and Copier.

Accounting Intelligently

Do you know how much print expenditure you can retrieve from clients? Are some of your printers idle and others too busy? Can your departments charge each other efficiently? Can you control all your print budgets from one source? These are just some of the issues that Canon Document Accounting Solutions can help you resolve successfully. So you can keep your expenditure down while the quality of your output goes up, thanks to Canon's Black & White with smart colour products.

Easy to configure and control

For setting up and configuring, the iR 6800C is the answer to an IT manager's prayers. It can be integrated seamlessly into your system. **Using Canon's Network Utilities enables you to set up, configure, manage and control Canon devices.** So you can monitor one or many Canon MFPs and make the most of their print potential on your company or departmental networks. These utilities provide realtime access to information using a standard web browser, reducing time and administration for installation, monitoring and managing print on your network.

iR 6800C / iR 6800CN Specifications

Type	Printer
Maximum Original Size	A3
Copy Sizes	
Cassette	A5R - A3,305x457mm, SRA3, 330x483mm
Stack Bypass	100x148.5mm - 330x483mm
Resolution	
Scanning	600dpi x 600dpi
Copying	600dpi x 600dpi
Printing	2400dpi equivalent x 600dpi
	256 Gradations
Copy/Print Speed	
A4	68 ppm B&W / 16 ppm full colour
A3	28 ppm B&W / 7.8 ppm full colour
First copy time	
Black-and-White	5.3 sec
Full Color	12.2sec
Warm-Up Time	8mins and 50secs or less
Multiple Copies/Prints	1 to 9,999 sheets
Duplexing	Standard automatic stackless
Paper weight	
Deck/Cassette	64 to 209g/m²
Stack Bypass	64 to 250g/m²
Duplex	
Colour	64 to 163g/m²
Black & White	64 to 209g/m²
Cassette	
Upper	2 Decks: A4
Lower	2 Universal Cassettes: (A5R to A3, 305x457mm, SRA3, 330x483mm)
Paper Capacity	
Standard	1500 sheets x2 Decks 1 & 2 (3000 sheets)
	550 sheets x2 Cassettes 3 &4 (1100 sheets)
	100 Stack bypass
Optional	
Paper deck	3500 sheets
Total paper capacity	7,700 sheets
CPU	Canon Custom Processor, 250MHz x 2
Memory	768MB
Hard Disk Drive	40GB
Interface	Ethernet (100Base-TX/10Base-T)
Power Supply	230V/10A/50Hz
Power Consumption(W)	1.65 kW maximum
Dimensions (WxDxH)	679x852x1191mm
Weight	226kg

Colour Network Multi-PDL Printer Kit-C1 (Standard for iR 6800CN)

PDL	PCL5c, PostScript3 Emulation and UFR
Resolution	2400 equivalent x 600dpi
Memory	768MB (Uses Main unit RAM)
Hard Disk	40GB (Uses Main unit HDD)
CPU	Canon Custom Processor 250MHz x 2 (Uses Main unit CPU)
PS Fonts	Roman136
PCL Fonts	Roman80, Bitmap1, Barcode30, OCR2
Supported OS	
PCL	Windows 95/98/ME/NT4.0/2000/XP/2003
PS	Windows 95/98/ME/NT4.0/2000/XP/2003, Mac OSX10.2or later
UFR	Windows 98/ME/NT4.0/2000/XP/2003
Mac-PPD	Mac OS8 or later
Interface	Ethernet(100Base-TX/10Base-T), TokenRing(Optional), USB(Optional),
Network Protocol	TCP/IP(LPD/FTP/Port9100/IPP/SMB), IPX/SPX(NDS, Bindery, NDPS-GW), AppleTalk
Pull Scan	Network TWAIN Driver (75 to 600dpi 24bit color/ 8bit grayscale/Black & white)

Colour Network Printer Unit-D1 (Standard for iR 6800C)

PDL	Adobe PostScript 3, PCL 5c
Resolution	2400 equivalent x 600dpi
Memory	128MB to 256MB(Optional)
Hard Disk	20GB
CPU	Intel Mobile PentiumIII 850MHz
PS Fonts	Roman138
PCL Fonts	Roman78 (including Barcode Fonts)
Supported OS	
PS	Windows 98/ME/NT4.0/2000/XP/2003, Mac OS9.0/X
PCL	Windows 95/98/ME/NT4.0/2000/XP/2003
Interface	IEEE1284, Ethernet(100Base-TX,10Base-T)
Network Protocol	TCP/IP(LPD/FTP/Port9100/IPP/SMB/email), IPX/SPX(NDS, Bindery, NDPS-GW), AppleTalk

Colour Universal Send Kit-C1 (Optional)

Scan Speed	70 ipm: (A4 300dpi compressed PDF), 60 ipm: (A4 300dpi, PDF & JPEG)
Scan Resolution	100dpi, 150dpi, 200x100dpi, 200dpi, 200x400dpi, 300dpi, 400dpi, 600dpi
Destinations	E-Mail/Internet FAX (SMTP), PC (SMB, FTP, NCP), iWDM
Address book	LDAP, Local (Max.1800)
File Format	
Single	TIFF, PDF
Multi	TIFF, JPEG, PDF

DADF(Standard)

Paper size	A3-A5R
Paper weight	
Single sided original	42 to 128 g/m²
Double sided original	50 to 128 g/m²
Max. Number of originals	100 sheets (80 g/m²)
Document Scanning speed	50 ipm (A4, Colour/B&W 600dpi) 70 ipm (A4, Scan, 300dpi, Compressed PDF)

Paper Deck-U1 (Optional)

Paper Size	A4
Paper Weight	64 to 209 g/m²
Paper Capacity	3,500 sheets (80 g/m²)
Dimensions (WxDxH)	326x593x574mm
Weight	Approx 31kg

Finisher-R1 (Optional)

Number of trays	2 trays (+ optional tray 1)
Tray capacity	
A4-A5R	1000 sheets
A3	500 sheets
Staple position	Corner, Double
Staple capacity	
A4	50 sheets
A3	30 sheets
Dimensions (WxDxH)	536x657x928mm
Weight	Approx 40kg

Saddle Finisher-R2 (Optional)

Number of trays	2 trays (+ optional tray 1)
Tray capacity	
A4-A5R	1000 sheets
A3	500 sheets
Staple position	Corner, Double, Saddle Stitch
Staple capacity	
A4	50 sheets
A3	30 sheets
Saddle Stitch Specifications	
Paper size	A3, A4R
Staple capacity	1 to 15 sheets (60pages, 64-80g/m²) 1 to 10 sheets (40pages, 81-105g/m²)
Paper weight	64 to 105g/m² (64 to 250g/m² for Cover page)
Dimensions (WxDxH)	648x657x928mm
Weight	Approx 68kg
